TAKE 5 FOR SAFETY

5-MINUTE SAFETY DRILL

Driving: Vehicle Inspections Keep Us Moving

Date:_____

Student:_____

Dept:_____

Station:_____

Training Code:_____

NOTES:

CHALLENGE

In order to respond to emergencies, our equipment must be in the best condition. A sidelined vehicle does little good. To ensure this, we must have a thorough and consistent inspection policy. Vehicle inspections will reveal maintenance issues that should be taken care of immediately! Our system of removing apparatus from service should be clearly communicated and adhered to. We should never operate a piece of apparatus in violation of our policies!

DISCUSSION

- What are our department's inspection policies?
- What determines if a vehicle is taken out of service?
- Have you had issues with apparatus breakdowns?
- How do you communicate maintenance concerns?
- How can we improve our inspection and maintenance procedures?

The greatest asset of the fire service is our people; protect them.
