TAKE 5 FOR SAFETY

5-MINUTE SAFETY DRILL

Risk Management : It's Your Call

Date:_____

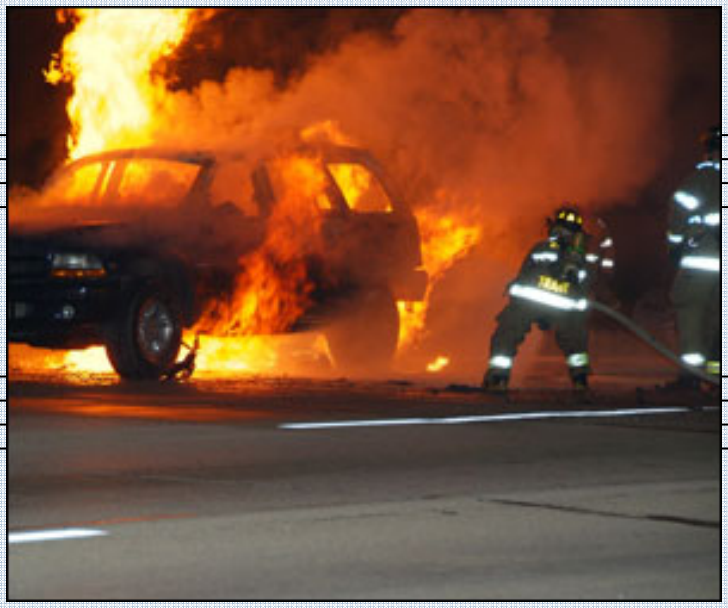
Student:_____

Dept:_____

Station:_____

Training Code:_____

NOTES:



CHALLENGE

Accidents occur at all hours of the day. However, night time poses special problems to ensure firefighters are safe. You have arrived at this scene. It's a busy highway, visibility is limited and a vehicle engulfed in flames. It is uncertain if anyone is alive in the vehicle. It's your call!

DISCUSSION

- What safety factors concern you as the safety officer?
- What PPE concerns come to mind?
- How aggressively would you attack this fire?
- How would you balance the concept of risk little to save little?
- What other concerns should be evaluated?
- What are your concerns as the incident commander?

The greatest asset of the fire service is our people; protect them!
