TAKE 5 FOR SAFETY

5-MINUTE SAFETY DRILL

Risk Management: It's Your Call

Date:_____

Student:_____

Dept:_____

Station:_____

Training Code:_____

NOTES:

CHALLENGE

Industrial fires are dangerous. The potential for explosions and release of toxic materials are issues that must be addressed. This scene is in the middle of the day. This facility is near a school and the winds are very high. You have arrived on the scene. It's your call!

DISCUSSION

- If this is the only facility of its type in your area, how prepared is the department?
- How would you proceed?
- How would you handle the evacuation of the school?
- Is there a secondary evacuation site away from this hazardous area?
- Have you practiced the evacuation drill?
- As the safety officer, what are your concerns?
- As the incident commander, what are your concerns?
- Do you have an agreement with a department with the expertise to fight this fire?
- What additional thoughts or concerns are raised with this scenario?

The greatest asset of the fire service is our people; protect them!
